Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 28 January 2008.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

DETAILED ACTION

This office action is in reply to an amendment filed on January 28, 2009. Claims 1, 18, 73, 74 and 127 have been amended. Claims 1, 18-21, 72-84 and 109-131 are pending.

Response to Arguments

Applicant's arguments filed 01/28/2009 have been fully considered but they are not persuasive. Applicant argued that, the art on record fails to teach the limitations 'providing a recipient with a message containing rules of a system, with a secure device containing an inactive form of a public key and ... activating the public key in the device' Examiner disagrees.

Examiner would point out that, Fischer (US 5,214,702) teaches a PKI system, including providing a recipient with a message containing rules of said system (i.e., limitations, capabilities and authorities) and with a secure device containing an inactive form of said public key, wherein said public key cannot be obtained from said device (i.e., granting/canceling authorities, column 19, line 67-column 20, line 67, column 12, lines 53-60 and column 14, lines 26-39), in response to said recipient digitally signing said message, activating said public key in said secure device [column 18, lines 46-64, column 19, line 67-column 20, line 67]. Examiner would point out that the art on record meets the claim limitations and therefore, the rejection is respectfully maintained.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 79, 82-84, 112-114 are rejected under 35 U.S.C. 102(b) as being anticipated by Fischer US 5,214,702.

As per claim 79, Fischer teaches a method of enforcing a security policy in a cryptographic system, said policy including controlling use of a public key, said method comprising:

providing a recipient with a message containing rules of said system and with a secure device containing an inactive form of said public key, wherein said public key cannot be obtained from said device [column 12, lines 53-60 and column 14, lines 26-39]; and

in response to said recipient digitally signing said message, activating said public key in said secure device [column 18, lines 46-64, column 19, line 67-column 20, line 67].

As per claim 82, Fischer further teaches the method wherein said rules include a rule to pay for use by said recipient of intellectual property provided through the system [column 19, line 67-column 20, line 67].

As per claim 83, Fischer further teaches the method wherein a user transaction by said recipient in the system is invalid until said digital signing is performed [column 19, line 67-column 20, line 67].

As per claim 84, Fischer further teaches the method further comprising in response to said signing by said recipient, a certifying authority accepting a transaction from said recipient,

said transaction based on a user transaction of said recipient in the system [column 19, line 67-column 20, line 67].

As per claim 112, Fischer further teaches the method wherein the public key is certified by an authority [column 19, line 67-column 20, line 67].

As per claim 113, Fischer further teaches the method further comprising: a certifying authority accepting a transaction from the recipient, the transaction based on a transaction of the recipient in the cryptographic system, after demonstration by the recipient of an agreement or consistency with one or more of the rules [column 19, line 67-column 20, line 67].

As per claim 114, Fischer further teaches the method wherein the rules comprise a rule regarding maintaining secrecy of the public key [column 19, line 67-column 20, line 67].

Allowable Subject Matter

Claim 1, 18-21, 72-78 and 116-131 are allowed.

Claims 80, 81, 109-111 and 115 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
